## ABOUT US

Established in 2010, QESH Standards Limited stands as a beacon of excellence in the realm of Quality, Environment, Health, and Safety (QESH) standards, with an unwavering commitment to empowering individuals and organizations on a global scale.

### Why Us?

- **Expertise:** Our team comprises seasoned professionals with a wealth of experience in QHSE standards and a passion for imparting knowledge.
- **Global Recognition:** Our international affiliations ensure that our clients receive services aligned with the highest global benchmarks.
- **Innovation:** We don't just follow standards; we set them. Our approach is fueled by a constant pursuit of innovation and improvement.

At QESH Standards Limited, we embody more than just a name; we embody a philosophy. Every interaction with QESH Standards Limited is characterized by understanding, collaboration, and the genuine desire to see our clients succeed.

Join us in navigating the realms of QHSE excellence. Whether you are an individual seeking professional development or a corporation striving for mastery, QESH Standards Limited is your trusted partner in the journey towards a future where quality, environmental responsibility, and safety define the gold standard.

Choosing QESH Standards Limited means choosing a partnership founded on trust, expertise, and a shared commitment to excellence.

Together, let's redefine the boundaries of excellence, forge new paths in sustainability, and elevate the standards of Quality, Environment, Health, and Safety.

## OUR VISION

To become the best one-stop shop for all Quality, Health, Safety and Environment services by applying our QESH (Quality, Environmental, Safety & Occupational Health) Standard approach.

To also provide customer oriented QHSE services in training, consulting, certification, and manpower services by utilizing the best applicable approach to respond to various QHSE concerns across the industries and world at large.

## OUR MISSION

QESH Standards maintains her corporate philosophy in providing best solutions to Occupational Quality, Health, Safety and Environmental needs through passionate understanding of current challenges; exploring contemporary best practices; cutting-edge approaches, adopting tailored services that considers prevailing technological advancement.

QESH acknowledges that business sustainability is achievable, and providing the right products or services the first time without any loss of resources is a profitable business. This is our moral obligation and that is what we stand for.

Our Core Values - \*Customers' Satisfaction, \*Excellence, \*Goal oriented, \*Value for money, \*Loss prevention, \*Business mutual benefit, \*effective & efficient approach, \*continual improvement.

## Message From The CEO

Dear Valued Partners and Future Collaborators,

It is with great pleasure and pride that I extend a warm welcome to you on behalf of QESH Standards Limited.

For over a decade, we've been dedicated to shaping excellence in Quality, Environment, Health, and Safety standards. Our journey has been one of continuous learning, innovation, and a steadfast commitment to the highest industry benchmarks.

At QESH, we don't just offer services; we provide pathways to mastery. Our training programs are meticulously designed to empower individuals and organizations, cultivating a culture of safety, sustainability, and operational brilliance.

In the realm of manpower supply and management consultancy, we stand as architects of efficiency. Whether you seek skilled manpower or strategic guidance, QESH is your partner in progress.

To our esteemed clients, thank you for entrusting us with your aspirations. To potential partners, we invite you to join hands in sculpting a future where excellence is not just a goal but a shared reality.

Welcome to QESH Standards Limited – where innovation meets integrity, and success is a journey we embark upon together.

Best Regards,

**Dr. Foreman Onuoha**  
MD/CEO, QESH Standards  
Limited  
(Key Consultant)

# Our Services

## Implementation & Consultancy

Creating effective management systems takes more than just a plan—it requires a structured approach and expert guidance. Our Implementation & Consultancy Services provide a clear path from the start to long-term success, ensuring your systems add real value instead of just checking boxes for audits.

### 1. Discovery & Gap Analysis

We begin by learning about your organization, how things work, and where improvements are needed. We compare your processes against global standards like ISO and others, then deliver a straightforward report that highlights both quick wins and long-term opportunities.

### 2. Tailored System Design

Based on the gap analysis, we design a system that works for your organization. We make complex standards easy to follow by breaking them down into clear procedures, simple templates, and visual tools. If you have overlapping standards, we combine them into one efficient system.

### 3. Hands-On Implementation

Our job isn't just to provide paperwork—we help you put the system into practice. We run workshops, coach teams on new processes, and set up tools to make data collection and reporting easier. We test the system in smaller areas first to work out any kinks before rolling it out fully.

### 4. Competence Development & Change Management

A system only works if the people using it are on board. We help your team build the skills they need to succeed, while also guiding you through any changes in the organization. Our goal is to make sure everyone understands the system and how it helps the company grow.

### 5. Performance Verification & Certification Support

Once the system is in place, we monitor its effectiveness and help prepare for certification. We perform internal audits and support you through external assessments, making sure everything is in order so you can pass with ease.

### 6. Continuous Improvement & Ongoing Consultancy

Even after certification, we stay with you. We regularly check the system's performance, offer data-driven insights, and share best practices to help you improve. Whether you need ongoing advice, extra support at new sites, or help with long-term goals, we're here to ensure your system keeps delivering value.

## Our Services

### Equipment Certifications & Inspections

We provide inspections and certification for lifting equipment, accessories, and vessels (cranes, forklifts, tanks, slings, hooks, etc.) using Non-destructive test (NDT) methods - Dye Penetration, Magnetic Particle, Ultrasonic, Radiographic testing.

#### Services include:

- Compliance with QESH standards & regulatory requirements
- Load testing (static/dynamic), structural integrity checks, and safety device inspections
- NDT inspections for cracks, wear, and defects
- Operational & safety tests for cranes, hoists, and lifting gear
- Equipment calibration and remnant life assessment
- Repair supervision and certification

#### Our inspection services cover:

- Mechanical & Structural Checks: Brakes, clutches, wire ropes, sheaves, girders, rails, and load-bearing components.
- Load Testing: Static & dynamic tests to verify performance.
- NDT & Visual Inspections: Crack detection (hooks, structures) and distortion checks.
- Operational & Safety Tests: Functional checks of equipment and safety systems.
- Compliance & Certification: Regulatory assessments, remnant life analysis, and repair supervision.
- Pre-Use & Periodic Inspections: Mechanical, electrical, and structural evaluations.

Ensuring safety, compliance, and reliability.

## Our Services

### Manpower Outsourcing Services

From Multinational Conglomerates to MSMEs, every business entity understands the advantages of outsourcing. With ever increasing business demands companies want to stay focused on their core business activity and outsource support services to save time & energy. To remain competitive, they want to reduce costs and enhance employee productivity.

#### Our Services Include:

- Engineering Manpower – Project-based, peak-period, or specialized staffing, including turnkey solutions and payroll management.
- QHSE Professionals – Certified experts in Quality, Health, Safety, and Environment for the oil & gas sector.

We have personnel in the following categories:

- Quality Inspectors/Engineers (Experienced NACE I, II, III, ASNT I, II Certified, QMS Auditors)
- HSE Officers/Engineers (Experienced NISP, NEBOSH, ISO Auditors Qualified)
- QHSE Coordinators/Managers (Experienced NEBOSH Diploma, ISO Lead Auditor, Professional membership)
- Administrative officers/Secretaries/Personal Assistants/Customer Service officers
- Fire Officers

## Our Services

### Supplies
